**BEST BET: Race 9 - #5 Avery Island**

It's good to see this beautiful son of Street Sense back in the entries, and while this is likely a prep spot for the rest of his 2019 campaign, I do think that Avery Island is far and above the horse to beat. He has done very little wrong in his career, and although he hasn't raced in about 13 months, his last start was a victory in the G3 Withers. He is tactical and has been working very well at Palm Meadows.

**LONGSHOT: Race 7 - #3 Worth Avenue**

This drop down runner should be a good price in this race, as she does have some dirtied up form recently. However, she is switching back to the main track and I definitely feel that that is her preferred surface. She has not run this low in quite some time, and has a powerful closing kick, so hopefully this is the spot for her to get her confidence back and get back to the winners circle.
